

"Forestil dig en verden uden ressourcemangel. En verden, hvor vores handlinger ikke påvirker klimaet på negativ vis. En verden, hvor affald ikke eksisterer. Den verden findes."

ANDERS LENDAGER

Fra affald til arkitektonisk ressource: Fremtidens værdiskabelse i byggeriet

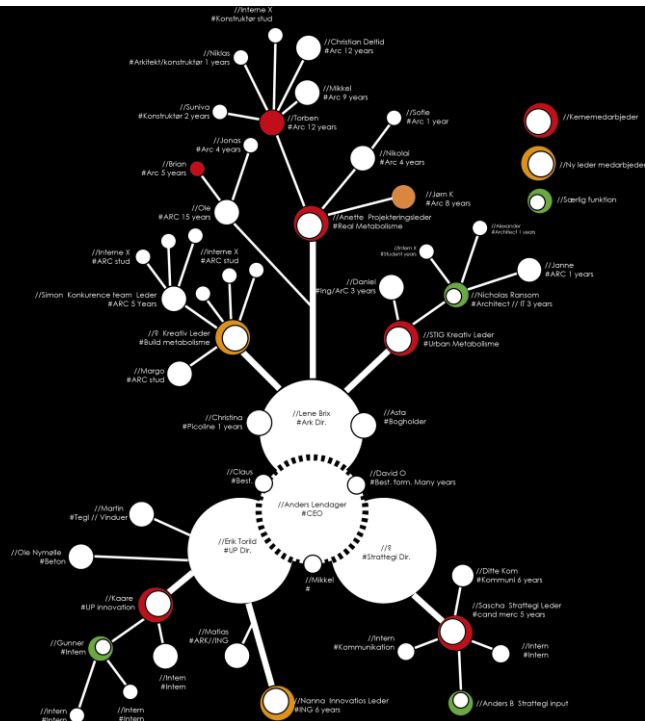

@AndersLendager

@LendagerGroup

THE NEXUS ORGANISATION TOWARDS A CIRCULAR ECONOMY

TO GLOBALE TRENDS

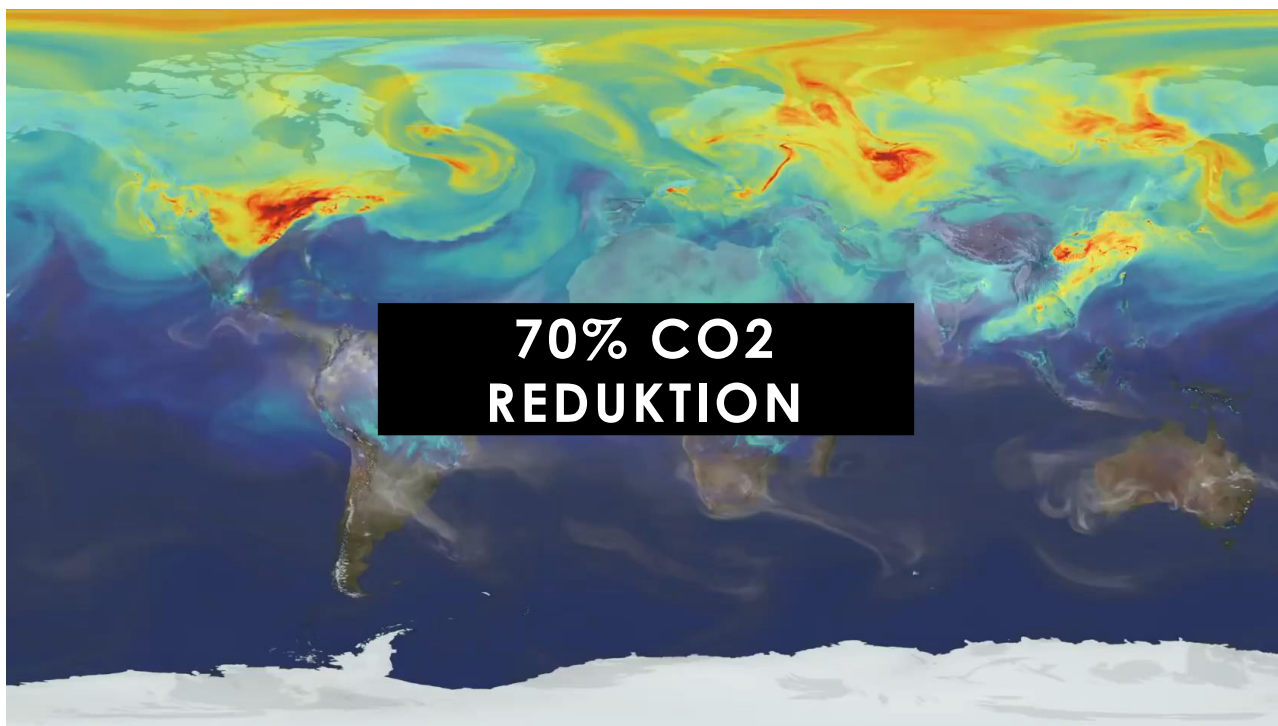

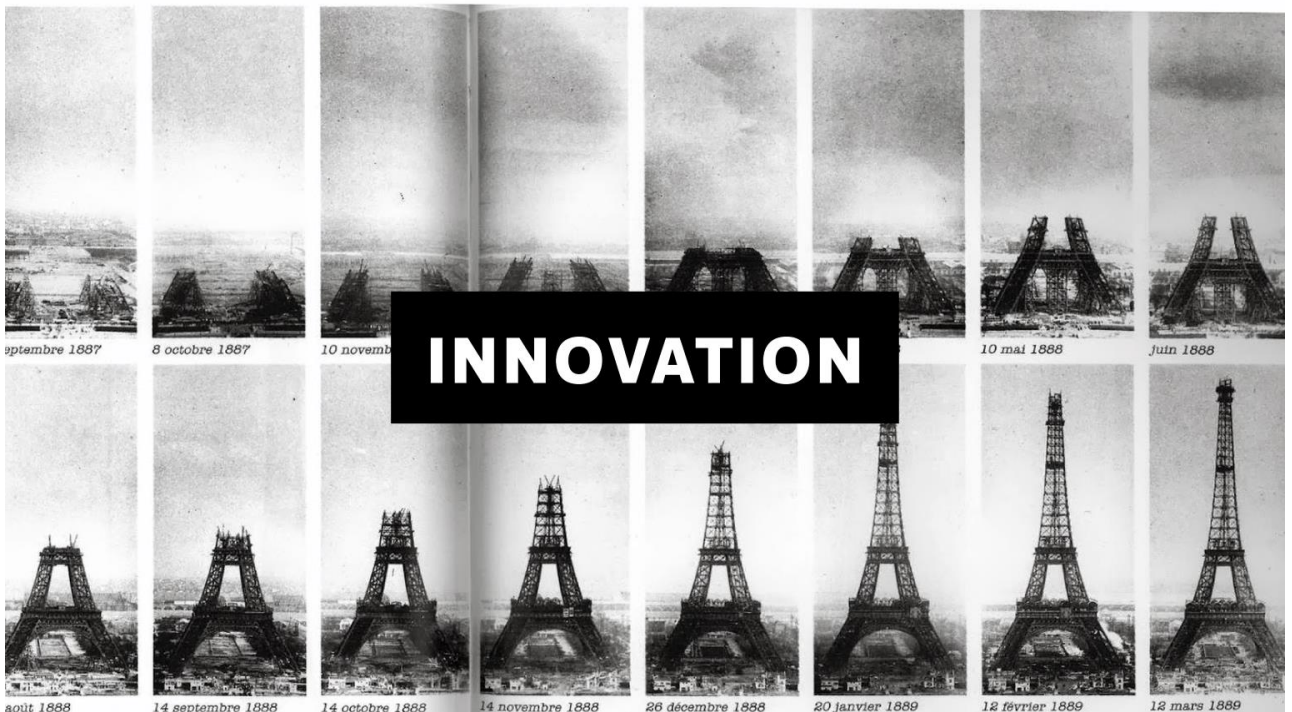

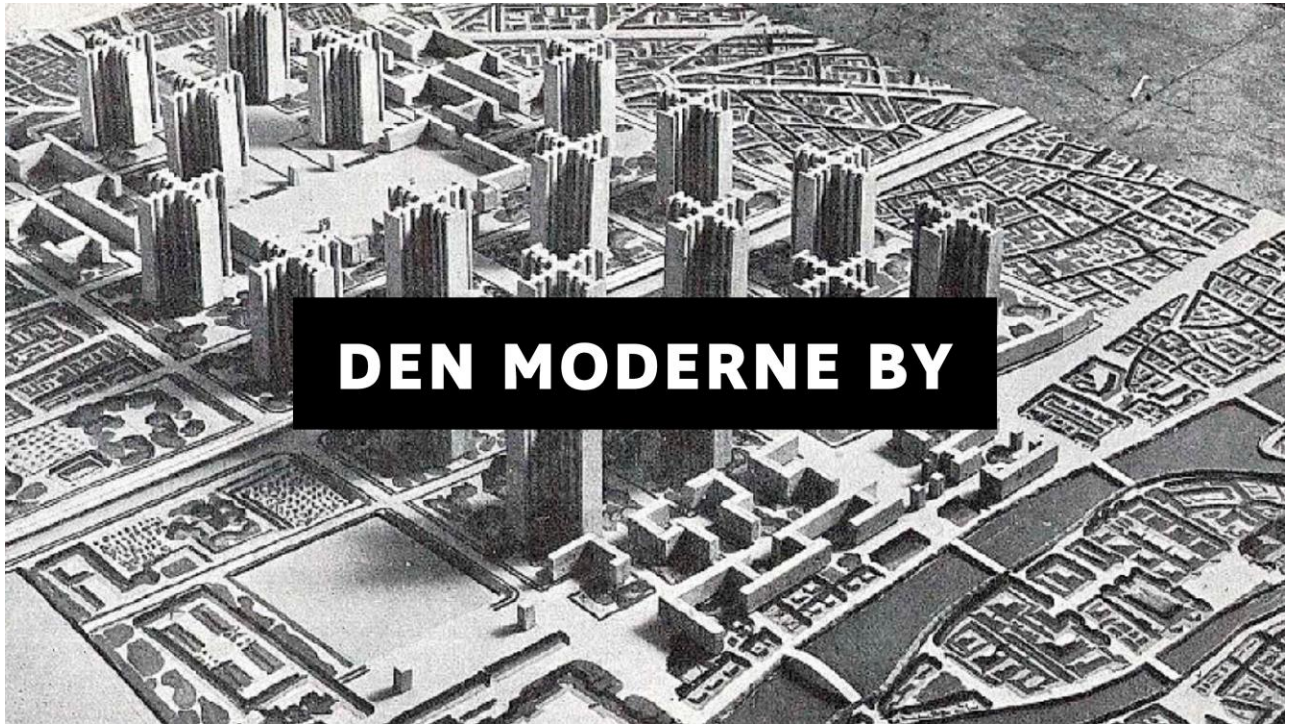

**FYLDT OLD TRAFFORD
3 GANGE OM DAGEN**

**1 FYLDT METROTOG
HVERT 2. MINUT**

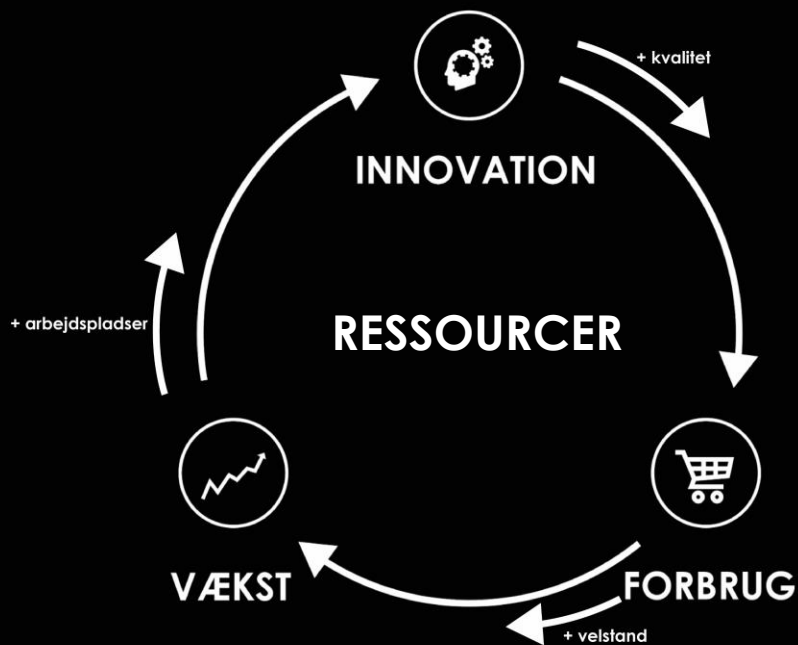

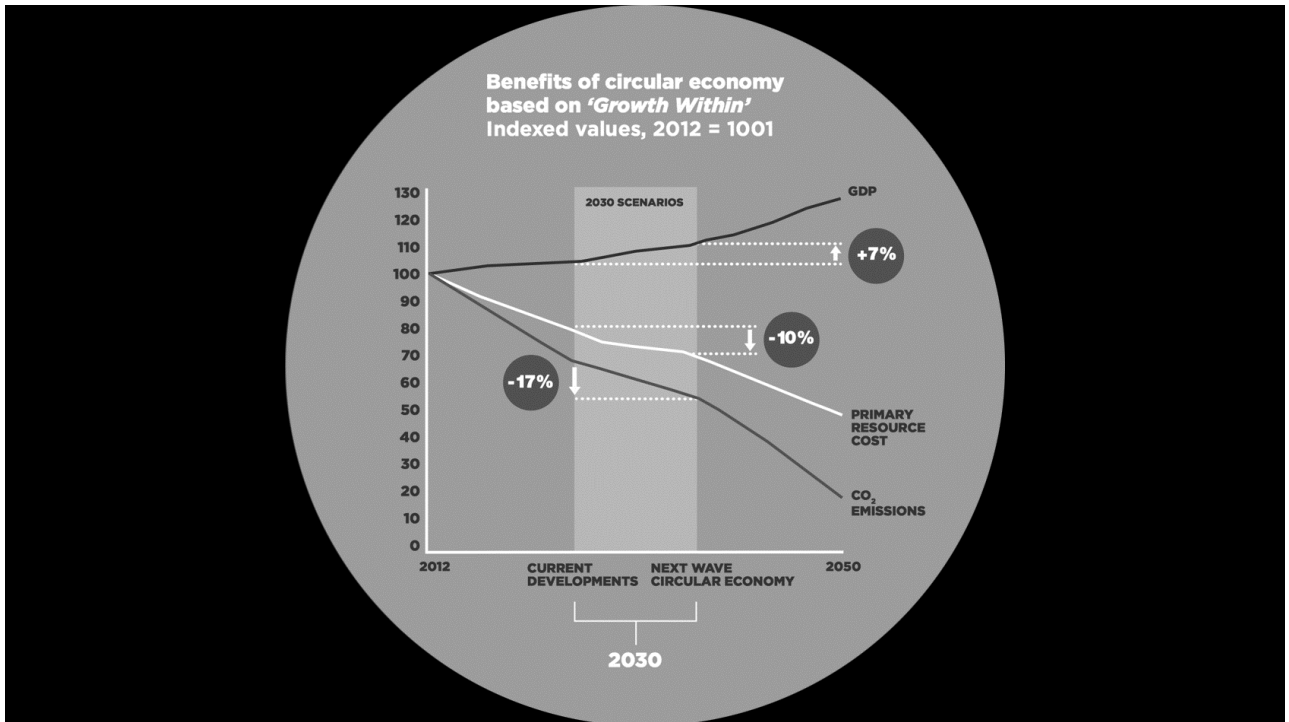

INNOVATION + FORBRUG + VÆKST = AFFALD

ER DEN NYE SHEIK

**MEGA PROBLEMS
ELLER
MEGA POTENTIALS**

Lendager Group Manifest

CIRCULARITY IN THE BUILD ENVIRONMENT

1. REACH FOR THE STARS

4. LOCAL IS GLOBAL

7. PEOPLE MATTER

2. WASTE IS MORE

5. CITY IS NATURE

8. BE THE SOLUTION

3. AIR BORN

6. BE SMART

9. BODY LANGUAGE

2. WASTE IS MORE

*Vi må ikke gå på kompromis med hverken pris,
æstetik eller funktionalitet.*

4. LOCAL IS GLOBAL

*Vi skal benytte de eksisterende lokale ressourcer,
vi har tættest omkring os.*

5. CITY IS NATURE

*Vi skal øge biodiversiteten i byer og give
indbyggere mulighed for at blive mere
selvforsynende.*

7. PEOPLE MATTER

Det byggede miljø skal sætte mennesket i fokus både før, under og efter bygningsprocessen – og øge det lokale engagement, med mulighed for at dele, låne og bytte.

8. BE THE SOLUTION

Vi skal efterlade et positivt aftryk på vores samfund og klima.

CASE 1
"KAN BETON LAVES AF
BETON?"

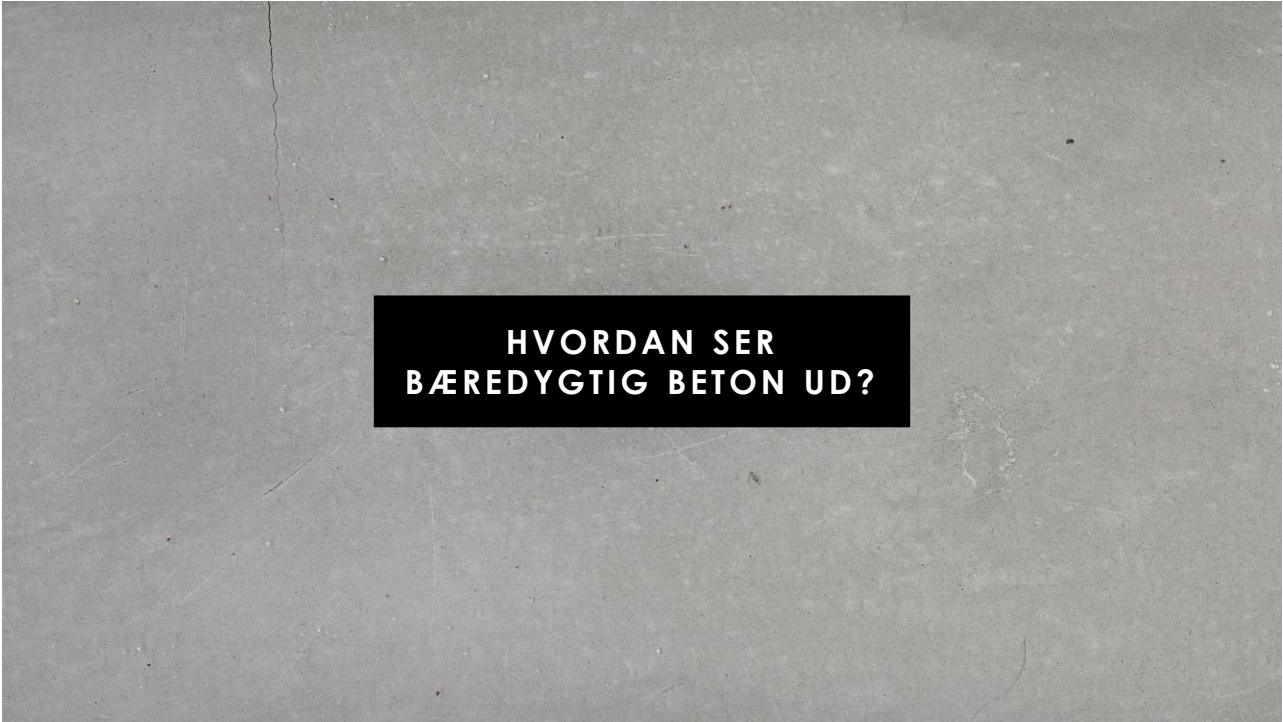

6% AF JORDENS CO2
UDLEDNING

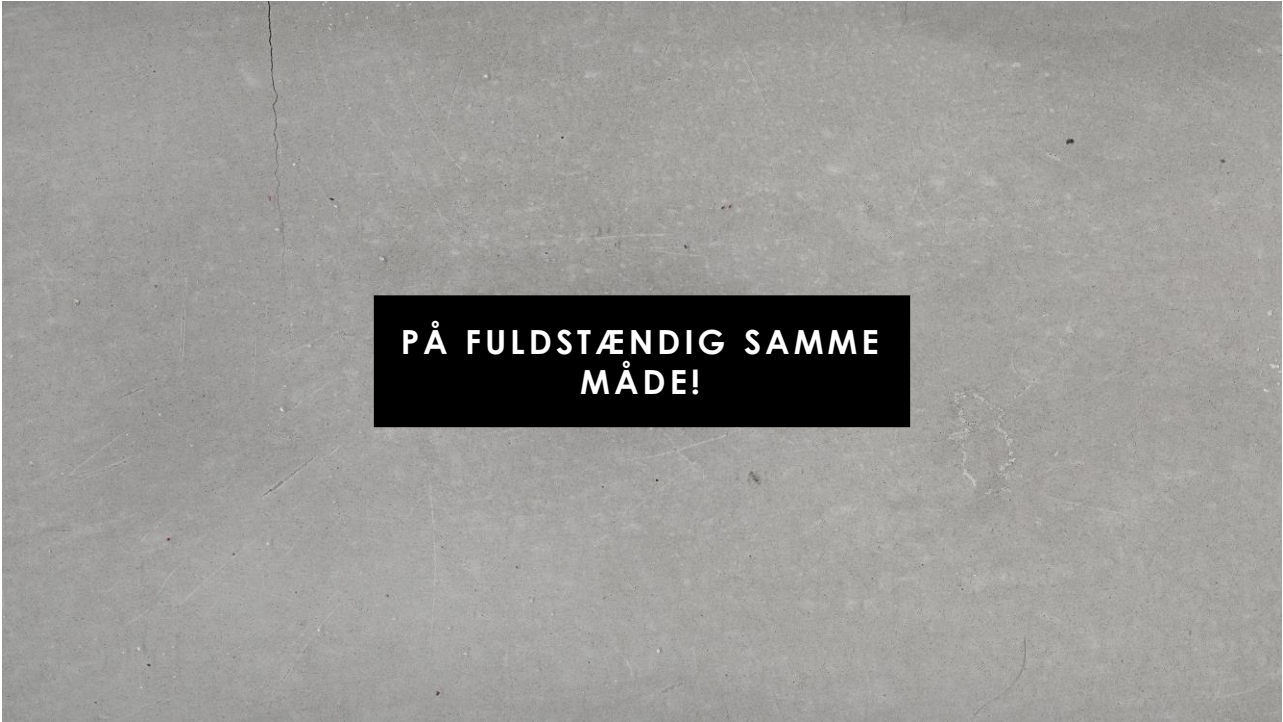

**HVORDAN SER
BÆREDYGTIG BETON UD?**

**PÅ FULDSTÆNDIG SAMME
MÅDE!**

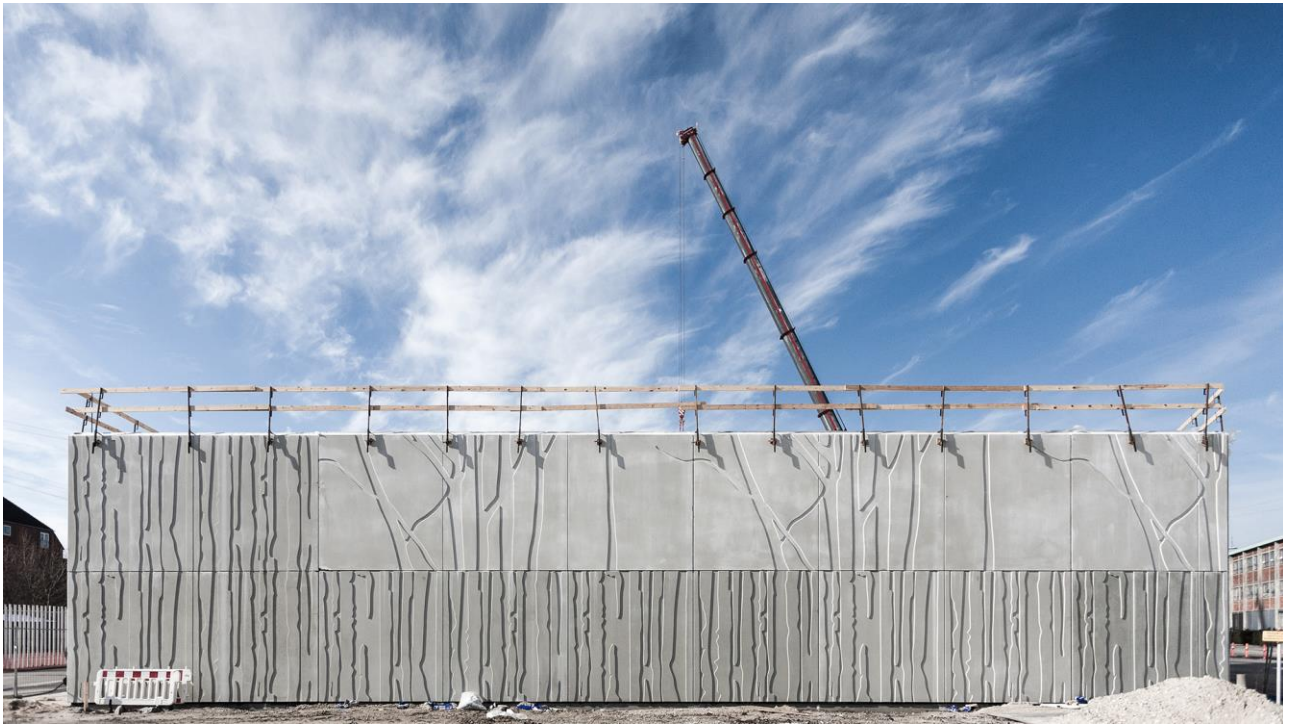

**HVAD HVIS UPCYCLED
BETON SKULLE VÆRE MERE
END BARE BETON?**

65% af fundamentet er lavet af genbrugt beton

**97 % AF DET NEDKNUST BETON
UPCYCLES, SOM SVARER TIL
2900 TONS**

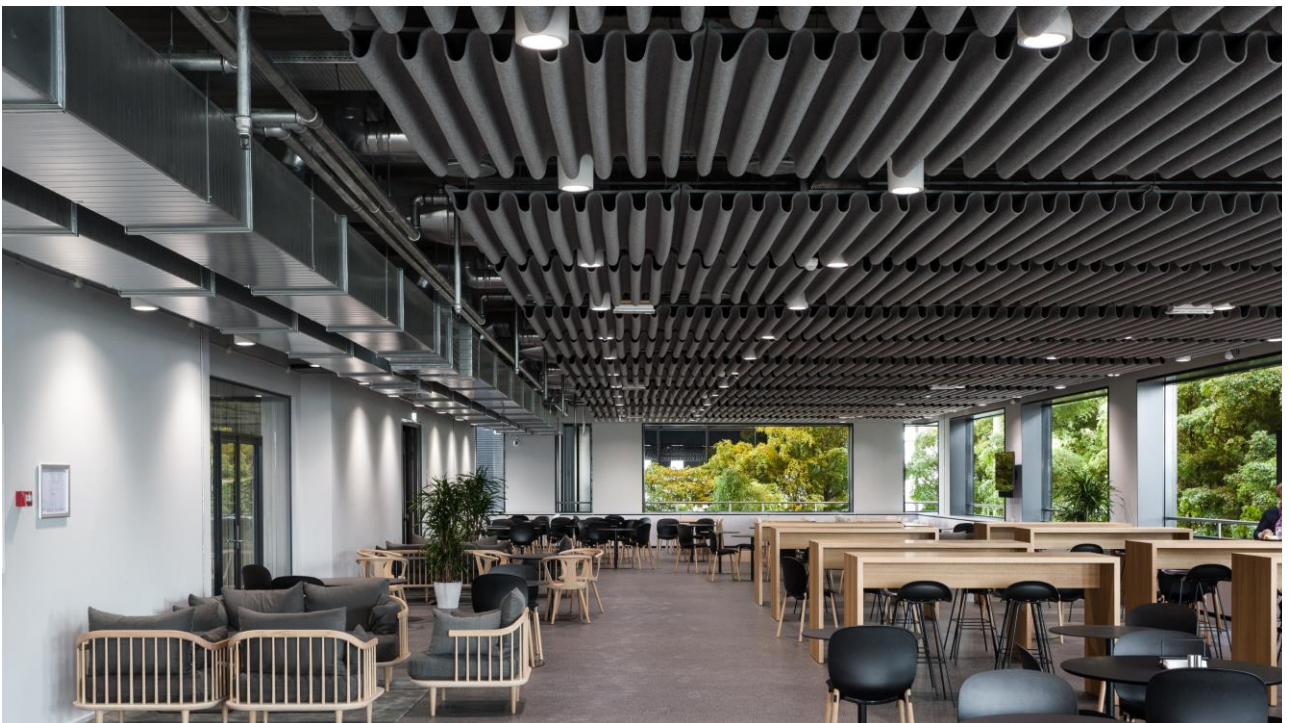

Lendager Up upcycle beton produceres
til samme pris som normal beton
